SECTION D — SDG-BASED ABSTRACT DETAILS

SDG Goal(s) Addressed	Peace, Justice & Strong Institutions; Sustainable Cities & Communities; Industry, Innovation & Infrastructure.
SDG Goal Number(s)	SDG 16, SDG 11, SDG 9
Problem Statement (1-2 lines)	Traditional village governance lacks a structured system for issue reporting and fund transparency, leading to delays, miscommunication, and reduced accountability. There is a need for a centralized digital platform to enable efficient issue tracking and transparent communication between citizens and authorities.
Proposed Solution / Technology Used	To develop a centralized web-based platform that enables villagers to report issues, track their status, and ensures transparent communication between citizens and authorities.
Impact / Outcome of Project	The project enhances transparency and accountability in village governance by enabling efficient issue reporting, real-time tracking, and improved communication between citizens and authorities, leading to faster resolution of problems and increased public trust.
Keywords (min. 5)	Village Governance, Issue Reporting System, Transparency, Web Application, Role-Based Access Control, Citizen Participation, MySQL, Node.js, React.js

SECTION K — EFFECTS OF PROJECT ON BROADER ASPECTS

Aspect	Project's Effect / Contribution (brief description)
Environment	The project is software-based and reduces the need for paper-based complaint systems, thereby minimizing environmental impact.
Safety	The system is safe to use as it involves no physical risks and ensures secure handling of user data through authentication and validation.
Ethics	The project promotes ethical governance by ensuring transparency, accountability, and protection of user data without misuse.
Cost Effectiveness	It reduces administrative costs by digitizing issue reporting and management, eliminating manual processes and paperwork.
Societal Impact	The system improves communication between citizens and authorities, increases public participation, and enhances trust in governance.

Sustainability	The project supports sustainable development by enabling efficient resolution of issues related to infrastructure and public services.
Standards & Compliance	The system follows standard software development practices, including proper coding standards, validation, and structured design principles.

SECTION L — PLAGIARISM CHECK & REPOSITORY UPLOAD

Plagiarism Tool Used	☐ Turnitin ☐ iThenticate ☐ Unicheck ☐ Other: _____
Similarity Index (%)	8
Acceptable Threshold Met?	☐ YES (below 20%) ☐ NO — revised report enclosed

— END OF CHECKLIST —

This filled in document must be submitted along with all supporting documents before the Voice of village: fund transparency and issue reporting system Examination.

Required Attachments:

1. SDG based abstract copy

2. Paper published (Full pages)

3. certificate of paper published / project expo

Note:

- **All Project teams should bring both mini and major project files (all reviews ppts, source code , documentation soft copies etc..) in a pen drive (or HDD) and copy them at Project Coordinator system by April 18th 2026**
- **All project teams should show all 6 copies Hard bound project reports signed by Internal guide to the project Coordinator.**
- **All project teams should get signatures on this check list by 4 faculty members (Internal guide, Alumni coordinator, department placement coordinator and finally by overall project coordinator and submit at project coordinator desk.**
- **All students will be permitted to the final Viva only upon submission of above requirements (for strict Compliance)**
- **A no due will be issued by project coordinator upon all formalities completion. (at cabin F109A, Block 1, 1st floor)**
